Re: Patent Application Serial Number 10600364

December 28, 2006

Dear Ms. Dodson:

Happy New Year.

It was very nice to speak with you. Regarding the patent application # 10600364, filed in June 2003 for Graft, Material, and Device and Method of Making, I would like to change my mailing address

From: 1925 Chestnut Street
#C-20
Philadelphia, PA 19103

to: 1028 North Lake Ave
#202
Pasadena, CA 91104
(267) 441-5448

It is a CIP of Method & Device for Making Reversed Bypass with Cultured Vessel in Situ, US Patent No. 6,824,549 B1®, issued Nov. 30, 2004. Because the related work is much bigger than any person, a team work is highly needed to make a positive move for public health.

Thank you very much.

Happy Holiday

From Iris Zhao
